STEM Activity
Kids Can Build

Goal: To build the strongest bridge using only 1 sheet of 8 ½ by 11 paper (piece of paper)
Materials: 1 piece of paper, 2 books to set the bridge on, pennies for weight
Task: The bridge must be constructed on top of 2 books and must be free standing. You can not use any other materials. The paper can be folded or cut, but no glue or tape are allowed. To test the bridge, individually place pennies on top of the bridge and see how many it can hold before it collapses.
Reflection Questions: 1) Were you successful in this challenge? Why or why not? 2) What was the most difficult part of this challenge? Why? 3) What did you learn about engineering and building in this challenge?
